SUMMARY

Release Announcement

This release of ERAD RIS 4.2023.030 resolves Scheduling issues that sometimes occurred when saving, and resolves an issue updating contact logs.

Resolved Issues

This release resolves the following issues:

Category	Redmine #	Subject
Mammography	30357	Resolved Contact Log issue where previous entries would incorrectly update to the current date and user.
Scheduling	33925	Resolved Scheduling issue where saving in some cases would present an error dialog and add a red exclamation mark to the tab title.
Scheduling	33930	Resolved Scheduling issue where saving would intermittently return an insurance card recognition error.
Validation Rules	33923	This is a service-only change with no customer-facing functionality.
