Category	Redmine #	Subject
Scheduling	34969	Resolved a Scheduling issue where errors were occurring on exams if Payment Rules were applied.

SORTED BY CATEGORY AND REDMINE

# FEATURE DETAILS

## Payment Control

### Feature #34634 – Support for new ImaginePay Care Credit Payment Option

#### Summary

This enhancement to Payment Control adds additional accepted methods of payment to the Imagine Pay system.

#### Background

Previously, Imagine Pay had no provision for accepting Care Credit or "other" methods of Payment.

#### Feature Description

Imagine Pay has enhanced their software with additional payment types within the Payment form. With these changes, Care Credit and Money Orders will now be accepted at time of service.

The screenshot shows a payment form for 'JOHN SMITH - \$109.00'. It has three steps: 'Step 1. Payment Selection' (Pay Now), 'Step 2. Payment Amount' (\$109.00), and 'Step 3. Payment Method'. The main heading is 'What payment method will you be using?' with a subtext 'Please select one of the options below.' There are three buttons: 'Debit/Credit Card', 'Bank Account', and 'Other' (which is selected). Below this is an 'Amount' section with radio buttons for '\$109.00' (selected) and '109.00'. A red box highlights the 'Select Payment Type' dropdown menu, which contains three options: 'Cash' (selected), 'Care Credit', and 'Money Order'. A red arrow points to the 'Care Credit' option. To the right is a 'Reference Number' field (optional) and a 'Next' button.

#### Configuration Instructions

No System Administrator actions are necessary to enable this feature.

#### RIS Client

Changes to SystemConfig Lookup Table

The following related settings were added or updated:

Setting	Default	Purpose
ImagineCareCreditPaymentTypeStrings	CPPT	Value=CSV as String, Default = [CCPT] - Comma separated list of ImaginePay payment type codes that may be returned from an ImaginePay Care Credit payment transaction. Added in #34634
