SUMMARY

Release Announcement

This release of eRAD RIS 4.2025.013 resolves a scanned documents interface issue.

> *This release resolves the Known Limitation identified in the eRAD RIS Service Bulletin 20250219 – Scanned Documents Mismatch.*
>
> *This medium-severity issue was identified by the Development Team. In unusual circumstances, scanned documents may be incorrectly assigned. A software fix and data fix strategy are available.*

Resolved Issues

This release resolves the following issues:

Category	Redmine #	Subject
Interfaces	36593	Resolved Interfaces issue that caused data corruption by reassigning scanned documents incorrectly. This medium-severity issue was identified by the Development Team. In unusual circumstances, scanned documents may be incorrectly assigned. **Data Fix** A data fix strategy for previously impacted records is available. The Development Team has developed several database queries to identify affected records and will work with affected sites to prepare a combination of automated and manual updates to restore the majority of impacted records.
