1. Defects Resolved

Redmine #	Subject	Priority
6192	Hidden text in editor counts as text when validating fields and section	High

The resolved bug listed above resolves an issue in which users had the option to hide text within the reporting window. This option was available to radiologist and transcription users. The workflow for this option has been altered. You can no longer hide text, only unhide. If there is hidden text in a report, transcription users cannot transcribe and radiologist users cannot sign. They will be presented with a message like the one displayed below.
