# SUMMARY

## Intended Audience

The intended audience for this CUSTOMER RELEASE NOTES document is the RIS Administration team for all eRAD RIS customers.

*Pleased carefully review these release notes even if your site will not be upgraded immediately, to identify and communicate any issues that may affect your site.*

This document contains information on the purpose, configuration, and operation of new features made available with this release, identifies issues resolved in the release, and highlights any unresolved known limitations.

*There is no separate SERVICE RELEASE NOTES edition of this document.*

## Who Is Affected

This version resolves a defect related to the Wedge interface. This hotfix is recommended to be applied on 2018.5.5.4 installs.

# RESOLVED ITEMS

## eRAD RIS

This release resolved the following Redmine tickets:

Redmine #	Subject
28824	Resolved Interfaces performance issue where the Wedge was consuming high CPU usage.
