RADAR SecurePIC	33184	Update SecurePIC to support sending communication by Order Key	This is a service-only change with no customer-facing functionality.

SORTED BY CATEGORY AND REDMINE

Refer to the FEATURE DETAILS section below for configuration and usage information.

FEATURE DETAILS

RADAR SecurePIC

Service-Only Feature #33184 – Update SecurePIC to support sending communication by Order Key

Summary

This enhancement to RADAR SecurePIC introduces the ability to send SecurePIC communications for Ordered (not yet Scheduled) exams.

Background

Previously, the API only had the capability of sending SecurePic requests via the use of accession numbers for scheduled exams, but no mechanism to send for orders that were not scheduled.

Feature Description

The API has been modified to accommodate both accession numbers and order keys as valid parameters for communication transmission via RADAR.

All components of SecurePIC such as RADAR quick message, SecurePIC Image Request and Report Delivery have been altered to adapt this change.

Configuration Instructions

No System Administrator actions are necessary to enable this feature.
