IVT/Precert	35972	Alert User When Approved Precert Expiry Date is Before Scheduled Exam Date	This enhancement to IVT/Precert adds a popup alert if the approved precertification's expiry date is before the scheduled exam date.

SORTED BY CATEGORY AND REDMINE

Refer to the [FEATURE DETAILS](#) section below for configuration and usage information.

FEATURE DETAILS

IVT/Precert

Feature #35972 – Alert User When Approved Precert Expiry Date is Before Scheduled Exam Date

Summary

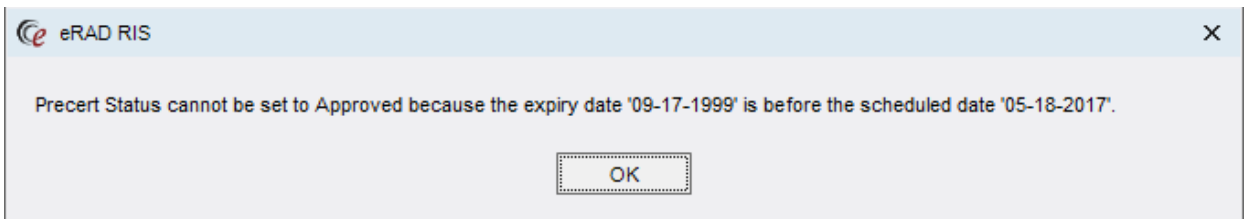

This enhancement to IVT/Precert adds a popup alert if the approved precertification’s expiry date is before the scheduled exam date.

Background

Previously, when a user tried to set a precertification status to **Approved** with an expiry date in the past, the system would revert the status back to **Required** without providing any explanation for the change. Additionally, the system did not support the ability to alert the user if the scheduled exam was beyond the timeframe of the approved precertification.

Feature Description

With these changes, if the user tries to set a precertification status to **Approved** for an exam scheduled after the expiry date, the system will display an alert popup.

DIALOG POPUP WHEN PRECERT STATUS CAN NOT BE SET TO APPROVED DUE TO PRECERT EXPIRING BEFORE SCHEDULED DATE.

Additionally, the expiry date will be highlighted in red on the **Billing Code Information** section. When the user hovers over the text they will be presented with a tooltip with the same message shown in the popup dialog.

The popup and tooltip message will be visible from the **Register**, **View/Edit**, **IVT** and **Schedule Order** screens.

Billing Code Information					
	ABN	PreCert #	Expiry Date	PreCert Status	PreCert Details
^	Procedure: XR Elbow, Bilat 2 Views [73070] (RD9)				
				Required	
^	Procedure: US (MC) Upr Ext Veins Duplex Unil [93971] (USMC9)				
			09-17-1999 9:09 AM	Required	

RED TOOL TIP THAT ALERTS THE USER IF THE SCHEDULED DATE IS AFTER THE EXPIRY DATE.

Configuration Instructions

No System Administrator actions are necessary to enable this feature.
